ALLOCATION CRITERIA & DETAILS

Dormitory Allocation+ How to Rank

- When applying, you will see a list of available dorms. You must rank these according to your preference:
- Place **your favorite dorm first** (1st preference).
- Select your second choice next, and so on.
- Your **last option should be your least preferred dorm.**

Final dormitory allocation is strictly determined by your **2025–2026 academic grades** AND the **preferences** you submit.

Available Dormitories

- Specific details regarding available dorms—including the exact number of people per room and the price per month—will be visible once you log into the platform.

Room Number Assignment

- Will be assigned by the Dormitory Administrator at check-in. Please note that the CCI office is not involved in this process; our office only allocates the dormitory building, not the specific room. All room-related details and requests must be discussed directly with the Dormitory Administrator.
